**REDIRECTIVE, NON-GATING PERFORMANCE TO SHIELD GUARDRAIL OR THE END OF CONCRETE BARRIERS**

The Redirective, Non-Gating, Sacrificial (R-NG-S) X-TENuator Crash Cushion features excellent impact performance at an affordable price. Utilizing superior engineering design, the X-TENuator Crash Cushion provides the life saving performance of a Redirective Non-Gating crash cushion without the high cost. The X-TENuator System has been designed to be installed permanently and is also approved to be used on asphalt in work zones where Redirective Non-Gating performance is required. Standard transition options and narrow footprint make the X-TENuator System ideal for shielding roadside hazards and reducing inventory costs.

**FREQUENTLY ASKED QUESTIONS**

**Can the X-TENuator System be attached to standard guardrail?**
Yes, the X-TENuator System has been designed to be attached to single and double spaced guardrail.

**Can the X-TENuator System be attached to concrete barrier?**
Yes, due to its freestanding backup the X-TENuator System can be attached to concrete barrier.

**Can the X-TENuator System be installed on asphalt?**
Yes, the X-TENuator System can be used on an asphalt foundation with additional anchors.

**Can the X-TENuator System be used in a work zone?**
Yes, The X-TENuator System has been designed to be used in temporary applications to shield narrow hazards such as portable concrete barrier.

**FEATURES**

» Low cost hazard protection

» 26 ground anchors required for concrete installations

» Accepted for installation on asphalt

» Attaches to single faced guardrail, double faced guardrail and concrete barrier

» Can be attached to concrete barrier with standard W-Beam transitions
